EVERGREEN NURSERIES

LARGEST STOCK AND LARGEST ASSORTMENT OF
EVERGREENS IN AMERICA.

SPRING

1895.

The Prices in this Catalogue Abrogate those quoted in all
Former Price Lists.

Special Prices Given on Large Orders.

EVERGREEN NURSERY CO., PROPRIETORS,
EVERGREEN,
DOOR COUNTY, WISCONSIN.

LARGE ILLUSTRATED DESCRIPTIVE CATALOGUE, 25 CENTS.

READ AND HEED.

Terms: Cash with order, or C. O. D. On C. O. D. orders we *must* have a deposit with your Express Agent of one-half the amount of the bill. *Send his receipt for the deposit.*

No charge for boxing or cartage.

Write your letter on one sheet of paper, your order on another.

Write *plainly* the name of the article you want, giving number, size, and price in figures according to catalogue.

No order accepted for less than \$1.

Write your name, post office, state, express office or station *very plainly*. We don't like to look at flourishes and guess at names.

Don't order one size of trees and send price of a smaller size.

Don't order any varieties or sizes not on the list.

Don't order trees to arrive at a specified time. We cannot control railroad trains.

SHIPPING.

Our shipping point is Sturgeon Bay, Wis. Our nursery is 3½ miles from the depot.

Shipments usually go safely by freight. The cost is considerably less on fifty pounds or more, but on smaller packages, the charges by express are but little if any more than by freight.

Season for Shipping. Our shipping season—that is, to commence digging and shipping—usually begins about April 5th to 15th and continues until June 1st.

Early Shipments can be made from stock in our frost-proof cellars. By confining orders to stock marked with (*) we can ship at any time directed until our supply is exhausted. Orders for winter shipments are packed in paper-lined packages, and every possible precaution taken to have the plants go through safely. Express or mail is safest for winter shipments.

Complaints. Occasionally errors occur in the transaction of the thousands of details incidental to our business, but we are always ready to rectify them on proper proof, but must be informed just what the trouble is within the limited time printed on invoices sent. If you ever have occasion to complain, always state the case plainly, giving the date when the order was sent, number of order, the amount sent, and what was ordered.

Remittances may be made by Money Order on Evergreen, Wis., Registered Letter, Express Order, or Bank Draft on Chicago or New York. *Don't send personal check.* Money order preferred. Customers must take the risk of loss in the mails of money sent by Postage Stamps or bills in ordinary letters.

TREES BY MAIL.

Customers desiring their trees sent by mail will add to the list prices the following amounts to pay postage and extra packing:

	2 to 4 in.	4 to 8 in.	8 to 15 in.
Evergreen seedlings, per 10	5c	10c	15c
" 100	15c	20c	35c
Evergreens, transplanted, per 10	6c	12c	20c
" 100	20c	25c	45c
Deciduous Trees, per 10	3c	6c	20c
" 100	10c	25c	50c

TO OLD CUSTOMERS.

We respectfully solicit your continued patronage, and promise you the same courteous treatment as you have always received at the hands of our predecessor, George Pinney, recently deceased. The business is entirely in the hands of old and thoroughly competent employees, who will conduct all the departments, on the same business principles, and maintain the high standard for quality of stock, etc., that was the pride of Mr. Pinney. The reputation of these nurseries for furnishing first-class stock at lower rates than any other reliable nurseries, will be guarded sacredly, and the old motto, "large sales, and moderate profits," shall continue the watchword of

Yours truly,

EVERGREEN NURSERY CO.,
Evergreen, Wis.

WILD EVERGREENS.

Some of our competitors have so industriously circulated the falsehood that we handle only "Wild Evergreens," that we find many persons believing it to be true.

Look at our lists: You will see that we name prices on "Wild Seedlings" of American Arbor Vitæ, Balsam Fir, White Pine, Hemlock Spruce, American Spruce, and American Yew. Of these *six varieties* we offer wild seedlings, Nursery Seedlings, and transplanted trees, and *customers get whichever sort they order.*

The folly of the charge is manifest by the fact that we raise in our Nursery nearly two hundred varieties of Evergreens, while *six varieties, only, grow wild in this section.*

Our sales of Wild Evergreens do not amount to more than two or three per cent. of our sales.

We notice that parties loudest in their cry against "Wild Evergreens," annually ship large quantities of them, not *only from northern Michigan and Wisconsin, but from the Rocky Mountain Region.* If these *Evergreens are good for nothing*, they of course would not sell them to their patrons. What then do they do with them? Echo answers: "What?"

That there be no misunderstanding we make a separate list of the *Wild Evergreens.*

They are collected for the most part on open ground, with great care against exposing the roots to sun and wind, packed and shipped fresh, and with skillful treatment a satisfactory proportion will live.

We employ experienced packers only, and patrons can be fully assured of their stock arriving in the best possible condition.

No order accepted for less than \$1.

No charge for boxes where cash is sent before shipment.

	tpd. 2 to 3 feet	40			

We do not pull seedlings from the forests as some nurserymen do, and sell them for nursery grown trees. We know of nurserymen who come up in this region and pull large quantities of wild evergreens from our forests, and as they do not advertise any *wild* trees, what do they do with them? Every wild tree we sell is distinctly understood to be such by the parties buying.

Our soil and climate is the home of the evergreen. Here we can grow hardier and healthier trees, with better roots, than any other place in America. We have in our nursery all varieties of soil—sandy loam and clay with impervious subsoil. A warm, dry, sandy ridge with gravel subsoil, and a low, wet, mucky soil. All classes of trees find here a congenial location.

Our stock embraces representatives of all branches of the Coniferae family. We draw upon all lands and climates, selecting only those that are most hardy and easily cultivated. We aim to sell mostly in small sizes as they are more easily handled, most sure to live, cost less and give better satisfaction to our patrons. All our rare varieties are now growing in nursery here.

RARE AND CHOICE VARIETIES OF EVERGREENS.

ONLY A LIMITED SUPPLY IN STOCK.

Sorts marked with a "T" are not hardy in the Northern States. Those marked "HT" are hardy except in the most northern states. All others are supposed to be entirely hardy. It is best to protect all varieties the first winter.

All transplanted one to four times. Plants 15 inches and under sent postage paid at prices of single plants.

Compare our prices with those of other reliable firms, and remember we make no charge for boxing or packing when cash is received before shipment. If you have never bought from us and would like to see samples of our stock, send for one of our special collections of evergreens. We do not pick samples; our stock is all good, and collections tell what all the stock is like.

If you are in need of small trees for forest planting, we are headquarters for them. We have 1,500,000 White Ash, and millions of trees of other suitable varieties. If you do not know just what kind of trees you would like to plant, send for our large illustrated catalogue of 128 pages, postpaid for ten cents in stamps or silver.

You may be told that because our prices are so low our stock is not worth much. Send for some of the following samples and you can see the quality of our stock.

SAMPLES.—Twelve or fifteen little evergreens, 5 or 6 sorts, about 8 inches high, will be sent by mail, postage paid, for 25 cents in stamps; or 25 to 30 plants, 10 or 12 sorts, will be sent for 50 cents in stamps. 15 to 20 samples of deciduous trees, 5 or 6 sorts, about 8 inches high, by mail postage paid, for 25 cents in stamps. Or 30 to 40 plants about 12 inches high, 8 or 10 sorts, for 50 cents in stamps. Every tree in first-class growing condition.

We have an immense stock of trees and plants growing, and are starting millions from seeds, cuttings, and grafts, every year. We want your trade this year, next year, the year after, and for years to come.

DECIDUOUS TREES.

Occasional errors occur in the transaction of the thousands of details incidental to our immense business, but we are always ready to rectify them when properly presented. If you should ever have occasion to complain, always state the facts to us plainly, instead of to your neighbor. We use damp moss exclusively in packing our trees. It is the very best material.

We have 1,000,000 White Pine that we want to sell this spring, and we therefore offer them at cut prices. If you can use a larger number of them than we quote prices on herein, will be pleased to have you write for special prices. If you want an evergreen wind break, Scotch Pine is what you want, and the best sizes are 2 to 3 feet, or 3 to 4 feet. Our prices are very low.

VARIETIES.		Each	10	100	10 by Mail.
*Holly, European, <i>Ilex aquifolia</i> .	Not quite hardy with us. Must be protected in winter in the north. Leaves very prickly and glossy; bright red berries. Tpd., 4 to 8 inches	10	75	-----	90
Holly, Variegated.	Grows the same as the European. Leaves variegated white and green. Transplanted, 4 to 8 inches	40	3 50	-----	3 75
*Hydrangea, <i>Paniculata grandiflora</i> .	Large heads of white flowers in August. Transplanted, 3 years	25	2 00	-----	2 50
*Laburnum, Golden Chain, <i>Cytisus</i> .	A small-sized tree, with shining green leaves; yellow flowers in June. This is one of our finest ornamental trees. Transplanted, 8 to 12 in. 12 to 18 in.	10 15	75 1 00	3 00 5 00	90 1 20
Laurel, Mountain evergreen, <i>Kalmia latifolia</i> .	Large and showy clusters of rose-colored flowers; lance ovate leaves, bright green both sides. Flowers in June	25	2 00	-----	-----
*Leatherwood, Moosewood, <i>Dirca palustris</i> .	A native shrub with neat foliage, and clusters of fine sulphur-colored flowers. Makes a fine shrub. 18 inches	25	2 00	10 00	-----
*Lilac, Purple, <i>Syringa vulgaris</i> .	12 to 18 inches	10	75	5 00	-----
" "	18 to 24 inches	15	1 00	7 50	-----
" "	2 to 3 feet	20	1 75	15 00	-----
" "	White, <i>Syringa alba grandiflora</i> , 1 to 2 feet	20	1 50	12 00	-----
*Maiden Hair Tree, <i>Salisburia adiantifolia</i> .	Sometimes called Japan Ginkgo. A native of Japan. Grows to be a large tree. The leaves resemble the Maiden Hair Fern, hence its name. One of the most beautiful ornamental trees. Seedlings, 4 to 8 inches	10	75	5 00	90
	Transplanted, 8 to 12 inches	20	1 50	10 00	-----
	" 12 to 18 inches	30	2 50	20 00	-----
	" 18 to 24 inches	75	6 00	-----	-----
	" 4 to 5 feet	1 50	-----	-----	-----
*Red Bud, <i>Cercis Canadensis</i> .	sometimes called Judas Tree. Red flowers. Transplanted, 6 to 10 inches	10	75	5 00	-----
*Siberian Pea Tree, <i>Caragana arborescens</i> .	A hardy, tall-growing shrub, somewhat like the Laburnum in appearance, bearing pea-shaped yellow flowers in May. We consider this one of our finest ornamental shrubs. Transplanted, 12 to 18 inches	15	1 00	7 50	1 25
	" 18 to 24 inches	20	1 50	15 00	-----
	" 15 to 18 inches	15	1 00	-----	1 25
*Snowball, <i>Viburnum opulus flora pleno</i> .	Tpd., 10 to 12 inches	-----	-----	-----	-----
*Snowberry, <i>Symphoricarpos occidentalis</i> .	A beautiful little shrub growing from one to two feet high, from early fall until spring covered with a profusion of white berries. You ought not to miss this in your collection. Transplanted, 10 to 15 inches	15	1 00	5 00	1 15
	Seedlings, 10 to 12 inches	10	75	4 00	90
*Snowberry, <i>S. orientalis rubro</i> .	Grows the same as the <i>occidentalis</i> , the berries being red. Transplanted, 1 to 2 feet	10	75	6 00	-----
	" 2 to 3 feet	20	1 50	10 00	-----
*Spanish Broom.	Transplanted, 8 to 15 inches	15	1 00	-----	1 25
*Spirea, assorted.	Transplanted, 2 to 3 feet	20	1 50	10 00	-----
	" 3 to 4 feet	25	2 00	15 00	-----
*Sumach, <i>Rhus copallina</i> .	A small tree, or large shrub, of rapid odd growth. Leaves pinnate on long leaf-stalk, turning scarlet in the fall; bears large compact bunches of red berries. If you want something odd and beautiful, try the Sumach. 10 to 18 inches	10	75	5 00	-----
	" 18 to 24 inches	15	1 00	7 50	-----
	" 2 to 3 feet	20	1 50	10 00	-----
*Tamarix, Gallica.	A feathery-foliaged shrub, with small pink flowers that cover the plant in June. Tpd., 15 to 24 in.	20	1 50	-----	-----
	" 2 to 3 feet	30	2 00	-----	-----
*Weigelia, assorted.	Transplanted, 12 inches	15	1 00	-----	-----
*Witch Hazel, <i>Hammelis Virginica</i> .	A large, flat-headed shrub of awkward growth, covered with curious yellow flowers after the leaves drop off in the fall. This is a very odd shrub. 3 to 5 feet	25	2 00	12 50	-----

If you want a hedge that will keep out stock, our Black Thorn is just the thing. The trees are extra strong and heavy. They will make an impenetrable hedge in a very short time. The price is very low. For a low, dense evergreen hedge, nothing is better than our English Juniper. The trees are extra stocky and well rooted. They are the finest lot we have ever had.

CLIMBERS AND TRAILERS.

VARIETIES.	Ea.	10	100	10 by Mail
Arbutus , Trailing, or Ground Laurel, in New England called Mayflower. Leaves evergreen, and somewhat heart-shaped; flowers pink, sometimes almost white, in small clusters. Blooms as soon as the snow is gone in the spring.....	20	1 00	7 50	1 25
Clematis, flammula . Pure white fragrant flowers in dense clusters; blooms from July to October. 3 years.....	10	75	5 00	85
*Clematis Jackmanii . Deep violet purple. A most profuse bloomer; is the finest in our collection. 3 years.....	40	3 50	-----	3 60
Clematis, viticella , (Purple). Large, drooping, purple flowers; blooms in continuous succession all summer. 3 years.....	15	1 00	7 50	1 10
Clematis, Virginiana —Virgin's Bower.....	10	50	4 00	60
*Honeysuckle , Golden. <i>Lonicera aurea reticulata</i> . A remarkable variety; leaves bright green, beautifully netted all over with golden veins, leaves and stems changing too bright crimson in Autumn. Don't miss this in your collection. 3 years transplanted.....	25	2 00	16 00	2 30
*Ivy, Irish , <i>Hedera hybernica</i> . Very ornamental. Should be planted in somewhat protected situations on a north or northwest wall where it will succeed well. 2 years tpd.....	25	-----	-----	-----
*Ivy, Japan, or Boston Ivy , <i>ampelopsis viticella</i> . One of the best climbers we have. Foliage is a fresh deep green in summer, changing to the brightest shade of crimson and yellow in autumn. 2 years.....	25	2 00	15 00	2 30
Periwinkle, or Running Myrtle , <i>vinca</i> . A trailing evergreen that covers the ground rapidly, and is adapted to make a deep mat of verdure in the shade of trees and buildings. Blue, transplanted, 3 years.....	15	1 00	-----	1 20
variegated, 3 years.....	25	2 00	-----	2 25
*Virginia Creeper , <i>Ampelopsis quinquefolia</i> . Often called American Ivy. It has a little resemblance to the true Ivy. It is by far the finest of vines in this country for covering walls. In autumn the foliage turns to a brilliant crimson or purplish crimson. The flowers are a greenish purple, fruit a purple berry in large flat clusters. If you want something fine, try this. 3 years transplanted.....	15	1 25	10 00	1 40
*Virginia Silk Vine , <i>Periploca græca</i> . Is a vigorous twining vine with large clean-cut, glossy, wavy leaves. The flowers are small, of a rich velvety brown, in July and August. 3 years transplanted.....	25	2 00	-----	2 25
*Wisteria , <i>Glycine frutescens</i> . The most rapid growing climber we have. Leaves composed of 9 to 13 leaflets; flower bluish-purple in shouldered racemes about six inches long, from July to September. If you want a rapid grower, try this. 3 years transplanted.....	25	2 00	-----	2 25

ROSES.

VARIETIES.	Each	10	100	10 by Mail
Arvensus . Used quite extensively for hedges.....	10	70	4 50	80
Dog, Rosa canina . Used very extensively for hedges. A very rapid grower, and makes one of the best rose hedges. 1 yr. 2 year.....	05	40	3 00	45
Jean de Arc , white. One of the finest. 3 years.....	10	75	5 00	90
Jean Hachett . A very fine rose. 3 years.....	50	-----	-----	-----
Madam Plantier . A perfectly hardy, pure white, double rose. The plant grows into a very fine bushy form, and produces flowers in great abundance in June. A most desirable rose for cemetery decoration. Large 3 year plants.....	30	2 50	17 50	2 90
Margarita . Fine large 3 year plants.....	40	3 00	3 40	-----
Marie de Bos , rose color. This is a fine large double rose.....	50	4 00	-----	4 30
Moss, white . Blooms in clusters, 3 years.....	75	-----	-----	-----
Moss Salet . Light rose color; large and full; a good Autumn bloomer. 3 years.....	50	4 00	-----	4 50
Ophire . Nasturtium yellow suffused with coppery red; of medium size; double. 3 years.....	60	5 00	-----	5 40
Triumph de la Duchess . 3 years.....	40	3 00	-----	3 30
Washington . Pure white; very double; a vigorous grower and profuse bloomer.....	50	4 50	-----	4 90
Wild . Collected and transplanted. Used largely for hedges. 2 years transplanted.....	08	40	3 50	50
The above roses are all strong field grown plants.				

Our aim is to sell the best stock for the least money. We guarantee all stock to be in a healthy, growing condition, on arrival at destination.

Send us a trial order and be convinced of what we say.

Our customers may be found in all parts of the civilized world, and on the grounds of the leading and wealthy citizens of the country. Our trees may also be found in most of the leading parks of the country. Remember, we make no charge for packing, but make a small charge for boxing when cash is not received before shipment. Always give shipping directions.

FERNS

*Evergreen, Cut-Leaf. <i>Aspidium felix fol.</i>	25	1 00	7 50	1 30
This fern is very ornamental in the Fall when other flowering plants are dead, as it remains green.				
Evergreen, Half Halbert. This also remains green, but is not as handsome as the Cut-Leaf.	20	1 00	6 00	1 30
Large Leaved, grows two to four feet high, very handsome for pot planting.	25	1 50	10 00	...
Maiden Hair Fern	25	1 50	10 00	1 75

Our collections of Evergreens are meeting with popular favor everywhere. In them you get a great deal more for the amount expended than from those offered by any other reliable nursery in the United States. Any one of the above collections will be sufficient to beautify your grounds.

Attention is directed to the fact that we are the most extensive growers of and dealers in Evergreens in this country. Our trade extends to many nations and climates. We have never been undersold by responsible nurserymen anywhere. If you have never dealt with us right now is the proper and accepted time to begin.

It is a very rapid grower and will stand more drought than any other evergreen. We have a very large stock and will be pleased to quote special prices on large quantities. Large orders specially desired. The best evergreen for the dry and hot regions of the west is the Ponderosa Pine. We have a very large stock and will be pleased to quote special prices on large quantities. If you are a nurseryman or a dealer in nursery stock, send for our wholesale list.
